Conscious parenting is about becoming mindful of your behaviour and engaging with your child as an individual. Dr Tsabary inspires parents to get back in touch with their emotions and shed the layers of baggage they have inherited during their own life and are unconsciously heaping on their children. As they become 'conscious' in their parenting, so parents can transform their relationship with their offspring and raise happy, well-adjusted children. The Conscious Parent is already transforming the way people are parenting through its sales in the US where it's spent 15 weeks on the New York Times bestseller list, Oprah described the book as 'The most profound book on parenting I've ever read' and Eckhart Tolle has said 'becoming a conscious parent is the greatest gift you can give your child.' The book features a foreword by His Holiness The Dalai Lama.

Everyone wants to be happy--yet so many people are unhappy today. What are they doing wrong? Clearly, a new approach is needed. Self-help guru Shinoff presents three new ideas and a practical program to change the way readers look at creating happiness in their lives:
1. Happiness is not an emotion, a spike of elation or euphoria, but a lasting, neuro-physiological state of peace and well-being.
2. True happiness is not based on what people do or have--it doesn't depend on external reasons or circumstances.
3. Research indicates that everyone has a happiness set-point. No matter what happens to a person, they will tend to return to a set range of happiness. This book shows how you can actually reprogram your set-point to a higher level.--From publisher description.

The majority of our joys, struggles, thrills, and heartbreaks relate to people, beginning first with ourselves and then the people we came from, married, birthed, live by, live for, go to church with, don't like, don't understand, fear, struggle with, compare ourselves to, and judge. People are the best and worst thing about human life. Jen Hatmaker knows this all too well, and so she reveals how to practice kindness, grace, truthfulness, vision, and love to ourselves and those around us. By doing this, "For the Love" leads our generation to reimagine Jesus' grace as a way of life, and it does it in a funny yet profound manner that Christian readers will love. Along the way, Hatmaker shows readers how to reclaim their prophetic voices and become Good News again to a hurting, polarized world.

A wise and inspiring guide to creating a happy and healthy blended family by Mashonda Tifere with contributions from her co-parents--Swizz Beatz and his wife, Grammy-Award winning singer and songwriter Alicia Keys. In January 2010, founder of ArtLeadHer Mashonda Tifere and music producer Swizz Beatz finalized their divorce. When Swizz married award-winning singer/songwriter Alicia Keys, a new dynamic was born--three adults who loved and were deeply committed to raising Mashonda and Swizz's four-year old son Kasseem. In Blend, Tifere draws on the insights they gained from their journey as well as advice from family therapists, parenting experts, and other blending families, to provide an invaluable resource for blended families. Statistics show that one in three Americans is now a step-parent, stepchild, step-sibling or other member of a blended family. The number of first time marriages or romantic relationships that end in divorce or breakups and the high percentage of remarriages and new relationships that involve children demand a unique, life-affirming approach to processing the end of one relationship and the rebirth of a new familial dynamic with the well-being of children at its center. In this book, Tifere shares intimate details on how she and her co-parents used communication, patience and love to create an environment where they were able to work as a team and all the children involved could thrive. Blend will inspire a generation of families.

Leadership is the most crucial choice one can make:it is the decision to step out of darkness into the light. Bestselling author and spiritual guide Deepak Chopra invites you to become the kind of leader most needed today: a leader with vision who can make that vision real. Chopra has been teaching leadership to CEOs and other top executives for eight years, and the path outlined in The Soul of Leadership applies to any business, but the same principles are relevant in every community and area of life, from family and home to school, place of worship, and neighborhood.
At the deepest level, Chopra writes, "A leader is the symbolic soul of a group." With clear, practical steps, you are led through the crucial skills outlined in the acronym L-E-A-D-E-R-S:
L = Look and Listen
E = Emotional Bonding
A = Awareness
D = Doing
E = Empowerment
R = Responsibility
S = Synchronicity
After identifying your own soul profile and the core values you want to develop, you can use these seven skills to allow your potential for greatness to emerge. Only from the level of the soul, Chopra contends, are great leaders created. Once that connection is made, you have unlimited access to the most vital qualities a leader can possess: creativity, intelligence, organizing power, and love. The Soul of Leadership aims to fill the most critical void in contemporary life, the void of enlightened leaders.
You can be such a leader. Chopra promises.
The path is open to you. The only requirement is that you learn to listen to your inner guide.
In this unique handbook you are shown how to do just that, in words as practical as they are uplifting. The future is unfolding at this very minute, and the choice to lead it lies with each of us, here and now.
