This comprehensive, well-received and thoroughly updated text, now in its Third Edition, continues to provide an in-depth analysis of the basic concepts of Auditing emphasising the practical aspects of the course. The book discusses in detail, classification and preparation of an audit, internal control system, internal audit, vouching of cash, trading and impersonal ledgers in addition to other topics. Besides, it deals with verification and valuation of assets and liabilities, company audit, cost audit, management audit, tax audit, bank audit as well as depreciation. The final chapters of the book give detailed description of business investigations, audit of special entities and auditing in EDP environment. Contemporary topics have been covered in the book to enlighten readers with the latest developments in the field of auditing, such as cost audit, tax audit, environmental audit and energy audit. The book is intended to serve as an indispensable text for undergraduate students of commerce as well as for CA and ICWA aspirants. New to this Edition • The Companies Act, 2013 (based on new company law). • Internal Audit chapter especially updated in the light of Section 138 of the Companies Act, 2013 and Rule 13 of the Companies (Accounts) Rules, 2014 notified by MCA. • Cost Audit chapter based on the latest Companies (Cost Records and Audit) Rules, 2014, issued by MCA.

BPP Learning Media provides comprehensive materials that highlight the areas to focus on for your exams and complement the syllabus to increase your understanding.

In Competition in Telecommunications, Jean-Jacques Laffont and Jean Tirole analyze regulatory reform and the emergence of competition in network industries using the state-of-the-art theoretical tools of industrial organization, political economy, and the economics of incentives.The book opens with background information for the reader who is unfamiliar with current issues in the telecommunications industry. The following sections focus on four central aspects of the recent deregulatory movement: the introduction of incentive regulation; one-way access; the special nature of competition in an industry requiring two-way access; and universal service, in particular, the use of engineering models to compute subsidies and the design of universal service auctions.

This manual explains the skills and steps for making a monitoring and evaluation system that functions well, organizing the people, processes and partnershipss that they collect and use good information that can be used by decision makers and other stakeholders.

This fifth edition of Tony Bush's bestselling text explores the links between educational management theories and the main models of leadership, and their application to policy and practice globally across varied educational contexts. This fully updated new edition is informed by an enhanced global perspective and expanded coverage of important contemporary issues including teacher leadership, professional learning communities, transformational leadership, instructional leadership and a critical assessment of distributed leadership. This is essential reading for all teachers who aspire to management, as well as for experienced leaders on Masters' level courses, and for those studying school management as part of education degrees.

BPP Learning Media provides comprehensive materials that highlight the areas to focus on for your exams and complement the syllabus to increase your understanding.

Takes an alternative look at the notion of 'wage-workers' and contributes to the development of a non-Eurocentric historiography.
