This is the third entry in an ambitious, highly regarded KM book series edited by T. Kanti Srikantaiah and Michael E. D. Koenig. Where Knowledge Management for the Information Professional (2000) offered information professionals an introduction to KM and Knowledge Management Lessons Learned (2004) assessed KM applications and innovations, Knowledge Management in Practice looks at how KM can be and is being implemented in organizations today. Featuring the contributions of more than 20 experts in the field, the book is unique in surveying the efforts of KM specialists to extend knowledge beyond their organizations and in providing a framework for understanding user context. The result is a must-read for any professional seeking to connect organizational KM systems with increasingly diverse and geographically dispersed user communities.

The global financial crisis is largely behind us, but the challenges it poses to the future stability

of the world's economic system affects everyone from American families to Main Street businesses to Wall Street financial powerhouses. It has provoked controversy over the best way to reduce the risk of a repeat of what proved to be the worst financial crisis since the Great Depression. To describe those challenges—and the lessons learned—the Hutchins Center on Fiscal and Monetary Policy at Brookings turned to frontline policymakers and some of their most prominent critics. *Central Banking after the Great Recession* contains the resulting research, leading off with a telling interview between Ben Bernanke, then in his final weeks as Federal Reserve chairman, and Liaquat Ahamed, author of the Pulitzer Prize-winning *Lords of Finance*. Insightful chapters by John Williams of the San Francisco Federal Reserve Bank, Paul Tucker of Harvard University, and Donald Kohn of Brookings discuss unconventional monetary policy, financial regulation, the impact of the crisis on the independence of the Federal Reserve. Each chapter is followed by a lively debate.

This book includes the papers presented at the II International Applied Research Conference "Operations and Project Management: Strategies and Trends" and the International Research Conference "Management in Financial Economy" held in Rostov-on-Don on May 19-20, 2021 within the framework of the South Russia Business Education Forum. The articles included in the book present a comprehensive analysis of the problems of adaptation of traditional and new methods of operational and project management, development of technologies for business process and supply chain management, development trends in financial economy

discussed both on a global scale and in the context of sustainable socio-economic development at the meso-level of regions and industries, which not only reveals the nature of the ongoing processes, but also demonstrates their specifics in industry, agriculture, service industry in Russia, CIS countries, Europe, and China. Particular attention is paid to business education in the new economic realities. The polemical focus of the above-mentioned issues in conjunction with the accuracy of the presented analytics makes it possible to come to unconventional, though practically realizable solutions.
