Founders Day 2020. Delta Sigma Theta Sorority, Inc. January 13. "...Our goal, our vision overall, is to make sure our Founders are proud when they look at us today." - National President & CEO Beverly E. Smith. #DST1913 #OurVoices1913 #DST107.

This history of the largest black women's organization in the United States is not only the story of Delta Sigma Theta Sorority (DST), but also tells of the increasing involvement of black women in the political, social, and economic affairs of America. Founded at a time when liberal arts education was widely seen as either futile, dangerous, or impractical for blacks, especially women, DST is, in Giddings's words, a "compelling reflection of black women's aspirations for themselves and for society." Giddings notes that unlike other organizations with racial goals, Delta Sigma Theta was created to change and benefit individuals rather than society. As a sorority, it was formed to bring women together as sisters, but at the same time to address the divisive, often class-related issues confronting black women in our society. There is, in Giddings's eyes, a tension between these goals that makes Delta Sigma Theta a fascinating microcosm of the struggles of black women and their organizations. DST members have included Mary McLeod Bethune, Mary Church Terrell, Margaret Murray Washington, Shirley Chisholm, Barbara Jordan, and, on the cultural side, Leontyne Price, Lena Horne, Ruby Dee, Judith Jamison, and Roberta Flack. In Search of Sisterhood is full of compelling, fascinating anecdotes told by the Deltas themselves, and illustrated with rare early photographs of the Delta women.

Although Bertha Pitts Campbell devoted her life to many causes that improved the lives of people and strengthened her community, none meant more to her than Delta Sigma Theta Sorority, which she and twenty-one other women founded in 1913 while attending Howard University. Through memories of Founder Campbell's sorors and family, four sister-friends share the achievements of an extraordinary woman who always lived life to the fullest and exceeded her goals. As a visionary member of the sorority, Founder Campbell marched in the 1913 Suffrage Parade for women's voting rights, orchestrated the sorority's international public service efforts, and helped transform the history of women and people of color. Her journey through life makes clear the fact that she was a brilliant thinker, passionate change agent, and empathetic leader who continuously strived for excellence. This biography tells the compelling history of the ideal Delta Girl who continues to inspire her sorors to live, live, live!

Mixing cultural criticism, literary history, biography, and memoir, an exploration of Alice Walker's critically acclaimed and controversial novel, The Color Purple Alice Walker made history in 1983 when she became the first black woman to win the Pulitzer Prize and the National Book Award for The Color Purple. Published in the Reagan era amid a severe backlash to civil rights, the Jazz Age novel tells the story of racial and gender inequality through the life of a 14-year-old girl from Georgia who is haunted by domestic and sexual violence. Prominent academic and activist Salamishah Tillet combines cultural criticism, history, and memoir to explore Walker's epistolary novel and shows how it has influenced and been informed by the zeitgeist. The Color Purple received both praise and criticism upon publication, and the conversation it sparked around race and gender still continues

today. It has been adapted for an Oscar-nominated film and a hit Broadway musical. Through archival research and interviews with Walker, Oprah Winfrey, and Quincy Jones (among others), Tillet studies Walker's life and how themes of violence emerged in her earlier work. Reading *The Color Purple* at age 15 was a groundbreaking experience for Tillet. It continues to resonate with her—as a sexual violence survivor, as a teacher of the novel, and as an accomplished academic. Provocative and personal, *In Search of The Color Purple* is a bold work from an important public intellectual, and captures Alice Walker's seminal role in rethinking sexuality, intersectional feminism, and racial and gender politics.

Reveals the historical and political significance of “The Divine Nine”—the Black Greek Letter Organizations In 1905, Henry Arthur Callis began his studies at Cornell University. Despite their academic pedigrees, Callis and his fellow African American students were ostracized by the majority-white student body, and so in 1906, Callis and some of his peers started the first, intercollegiate Black Greek Letter Organization (BGLO), Alpha Phi Alpha. Since their founding, BGLOs have not only served to solidify bonds among many African American college students, they have also imbued them with a sense of purpose and a commitment to racial uplift—the endeavor to help Black Americans reach socio-economic equality. *A Pledge with Purpose* explores the arc of these unique, important, and relevant social institutions. Gregory S. Parks and Matthew W. Hughey uncover how BGLOs were shaped by, and labored to transform, the changing social, political, and cultural landscape of Black America from the era of the Harlem Renaissance to the civil rights movement. Alpha Phi Alpha boasts such members as Thurgood Marshall, civil rights lawyer and US Supreme Court Justice, and Dr. Charles Wesley, noted historian and college president. Delta Sigma Theta members include Bethune-Cookman College founder Mary McLeod Bethune and women's rights activist Dorothy Height. Huey P. Newton, co-founder of the Black Panther Party, who left an indelible mark on the civil rights movement, was a member of Phi Beta Sigma, while Dr. Mae Jemison, a celebrated engineer and astronaut, belonged to Alpha Kappa Alpha. Through such individuals, Parks and Hughey demonstrate the ways that BGLO members have long been at the forefront of innovation, activism, and scholarship. In its examination of the history of these important organizations, *A Pledge with Purpose* serves as a critical reflection of both the collective African American racial struggle and the various strategies of Black Americans in their great—and unfinished—march toward freedom and equality.

The rich history and social significance of the “Divine Nine” African American Greek-letter organizations is explored in this comprehensive anthology. In the long tradition of African American benevolent and secret societies, intercollegiate African American fraternities and sororities have strong traditions of fostering brotherhood and sisterhood among their members, exerting considerable influence in the African American community and being in the forefront of civic action, community service, and philanthropy. Dr. Martin Luther King, Jr., Toni Morrison, Arthur Ashe, and Sarah Vaughn are just a few of the trailblazing members of these organizations. *African American Fraternities and Sororities* places the history of these organizations in context, linking them to other movements and organizations that predated them and tying their history to the Civil Rights movement. It explores various cultural aspects of the organizations, such as auxiliary groups, branding, calls, and stepping, and highlights the unique role of African American sororities.

The Wall Street powerhouse and author of *Expect to Win* offers a new way to conceptualize career strategies and gives us proven tools for successful change Whether we're starting out, striving toward a promotion, or looking for a new opportunity, the working world isn't what it used to be. Wall Street veteran Carla Harris knows this, and in *Strategize to Win* she gives readers the tools they need to get started; get “unstuck” from bad situations; redirect momentum; and position themselves to manage their careers no matter the environment. With her trademark galvanizing advice, Harris identifies and clarifies issues that are often murky, offering lessons on: Identifying and making the most of your work profile (are you a Good Soldier? a Leader? an Arguer?); preparing for a career change without going back to school or taking a step down: honing three essential skills industry leaders possess (and how to get them); tuning into unspoken cues; and thriving through change. Introducing a new way of planning one's career in five-year units, *Strategize to Win* distills battle-tested and step-by-step tools that Carla has used to launch and sustain her own successful career and help others move forward, recover from setbacks, and position themselves for success.

Some of the earliest abolition movements in the country started in East Tennessee, and Chattanooga has continued this proud tradition of being a progressive city for African Americans. The city benefits from its many successful African-American businesses and has produced some of the states most recognized black leaders.

This comprehensive history of African American fraternities and sororities celebrates the spirit of Black Excellence in higher education that has produced American leaders in politics, sports, arts, and culture such as Kamala Harris, Colin Kaepernick, Michael Jordan, Thurgood Marshall, and Toni Morrison, and is sure to be a treasured resource for generations to come. America's Black fraternities and sororities are a unique and vital part of 20th century African American history, providing young black achievers with opportunities to support each other while they serve their communities and the nation. From pioneering work in the suffragette movement to extraordinary strides during the Civil Rights era to life-changing inner-city mentoring programs, members of these organizations share a proud tradition of brotherhood, sisterhood, and service. Today, America's nine black fraternities and sororities are millions of members strong with chapters at HBCUs, Ivy League Schools, and colleges across the nation including Stanford University, Howard University, and the University of Chicago.
