The Certified Provider Credentialing Specialist Passbook(R) prepares you by sharpening the skills and abilities necessary to succeed on your upcoming entrance exam.

Physician Credentialing: A Guide for Physician Office Staff Veronica L. Rosas, CPCS Credentialing providers in a physician practice is a confusing and time-consuming process that can seem daunting to even the most seasoned professional. Between managing the credentialing of new physicians to the mandatory recredentialing that must be undertaken every few years, it is imperative that practice-based credentialing coordinators are on top of their game. Covering the credentialing process for both hospitals and managed care organizations, Physician Credentialing: A Guide for Physician Office Staff is a must-have, practical, and easy-to-read guide for credentialing coordinators and office managers, whether they are brand-new or experienced. The book walks readers through the required forms, provides suggested timelines, details documentation requirements, and offers tips for multitasking and organizational strategies to maximize efficiency. There is even helpful professional guidance, including information on certification, networking, and education. This resource will help you do the following: Utilize your time efficiently by knowing all the steps in the credentialing process Stay on top of credentialing in the physician practice Plan ahead to manage credentialing for new physicians while maintaining credentials for current providers Table of Contents Preface Part 1: Introduction Chapter 1: Introduction to Credentialing Chapter 2: The Credentialing Application Chapter 3: The Managed Care Credentialing Process Chapter 4: The Hospital Credentialing Process Part 2: Introduction Chapter 5: Credentialing the New Provider Chapter 6: Recredentialing and Reappointment Chapter 7: Managed Care Organization Contracts Chapter 8: Multitasking Chapter 9: Not All Healthcare Organizations Are the Same Chapter 10: On Your Own but Not Alone: Networking, Education, and Certification Conclusion Appendixes Appendix A: Contracting Checklist Appendix B: Acronym List Who should read this book? Credentialing coordinator Credentialing professionals Physician practice manager Physician office manager Physician practice administrator Practice manager Office manager Practice administrator Business manager

The Certified Provider Credentialing Specialist Passbook(R) prepares you by sharpening the skills and abilities necessary to succeed on your upcoming entrance exam.

Verify and Comply, Sixth Edition, includes both credentialing and medical staff standards and regulations in one easy-to-navigate manual, giving MSPs one book that answers all their accreditation questions. This expanded guide includes CMS, Joint Commission, NCQA, DNV, and HFAP standards side by side in an easy-to-read grid. Use this resource to study for the NAMSS certification exam and to keep up to date with accreditors' credentialing and medical staff standards. This book will help you: -Understand the differences between the stages of the credentialing process: appointment, reappointment, and ongoing assessment -Determine which verifications are necessary to obtain in the credentialing process -Discuss the importance of having an organized medical staff -Define the structure of your medical staff and its responsibilities -Determine the appropriate area in medical staff governance documentation to include specific items required by accreditation standards and regulatory requirements -Explain your medical staff's involvement in organizational leadership functions Free digital copy with purchase of print

Verify and Comply: A Quick Reference Guide to Credentialing Standards, Fifth Edition Carol S. Cairns, CPMSM, CPCS The Joint Commission... NCQA... CMS... DNV... HFAP... Searchable and side-by-side! Verify and Comply, Fifth Edition, is the much anticipated next edition of one of HCPro's most popular credentialing resources. Many satisfied customers have used this resource to study for their NAMSS certification exams and to keep up to date with accreditors' credentialing standards. This newly expanded guide addresses Joint Commission, NCQA, and CMS standards in the book, as well as DNV and HFAP on the companion CD-ROM. Get the resource thousands of MSPs have come to rely on. It will help you: Easily access, navigate, and compare the requirements of all five organizations at a glance Eliminate wasted time searching through multiple resources to find what you need Stop struggling to interpret the standards on your own Understand the differences between the stages of the credentialing process--appointment, reappointment, and ongoing assessment Get answers to your credentialing questions quickly and easily Study for your CPCS and CPMSM certification exams No other resource for credentialing standards offers you this level of expertise and convenience. All five sets of standards side-by-side, organized by topic, on a searchable CD-ROM The Joint Commission NCQA CMS DNV HFAP Three sets of standards in print in the book (The Joint Commission, NCQA, and CMS) Straightforward, complete summaries of standards Expert interpretation of the standards Distinct sections that clarify the differences between each stage of the credentialing process A tips section that allows for further analysis Special notations to readers who are studying for the CPMSM/CPCS exams Who will benefit? Credentialing specialist/analyst Medical staff services coordinator Director of medical staff services Credentialing coordinator Credentialing manager Medical staff professional Survey coordinator Earn continuing education credits! This program has been approved by the National Association Medical Staff Services for up to 3.0 continuing education unit(s). Accreditation of this educational program in no way implies endorsement or sponsorship by NAMSS. Navigate credentialing standards faster and easier. Order your copy today.

This book describes the nature of public-private partnerships (PPPs) in the health sector in Vietnam. It defines health-related PPPs, describes their key characteristics, and develops a taxonomy of the different types of PPPs that exist in practice, illustrated by international examples. It also assesses the regulatory and institutional framework for the health PPP program in Vietnam, as well as financing and accountability mechanisms for PPPs at its national and subnational levels. It provides an overview of the PPP project pipeline in Vietnam and analyzes important issues in the health PPPs' design, preparation, and implementation, using eight case studies involving projects in different phases of the project cycle. This book also examines barriers that have hampered the successful design and implementation of health care PPPs in Vietnam. These barriers may be broadly categorized as barriers in the PPP policy and regulatory framework, in the public sector, in the private sector, and in the financial sector. It proposes feasible and actionable recommendations so that the government can consider tackling the identified barriers and advance the successful design and implementation of health PPPs.

MSPs and medical staff leaders do enough vetting for practitioner applications without worrying about tracking down and validating resources that support structurally sound credentialing and privileging processes. Featuring an array of field-sourced, expert-endorsed forms that facilitate regulatory compliance, policy development, and routine credentialing communications, The Credentialing and Privileging Toolbox lightens the administrative load so MSPs and medical staff leaders have more time for duties that foster high-quality care and patient safety. Inspired by our popular OPPE and FPPE toolboxes, The Credentialing and Privileging Toolbox offers a bevy of sample forms, policies, letters, reports, plans, and related resources that healthcare organizations of various scope, size, and service focus are currently using to execute effective practitioner vetting processes. Included tools, which come from in-the-trenches MSPs and medical staff leaders, have been curated and appraised by expert author Merella Schandl. The resulting collection reflects industry best practices, the wide range of modern healthcare entities that credential and privilege practitioners, and the various aspects of a successful vetting approach. Tools are arranged by type and topic for easy navigation. Within each tool, Schandl highlights key components and provides targeted analysis on tailoring the sample to individual facility needs.

The Medical Staff Services handbook is the most comprehensive educational resource available for medical staff services departments. More than an introductory text it covers all department functions and offers practical advice on managing the credentialing and privileging process. This indispensable book can be used as a training tool for students, new employees, and physician leaders; as an on-the-job reference for medical staff services professionals; and as a guide to standardizing department processes. This second edition offers new information on the professional practice evaluation process. It addresses healthcare accreditation programs and hospital functions such as the institutional review board, cancer programs, and accredited continuing medical education programs. Helpful guidance on healthcare technology and legal issues is also included. Students who will be taking the NAMSS exam will find this handbook an ideal preparation tool.
