Key Features: Background on the social context of immigration law and its enforcement while engaged in a sophisticated examination of the technicalities of the relevant statutory and administrative law. Classic Books Library presents this brand new edition of "The Federalist Papers", a collection of separate essays and articles compiled in 1788 by Alexander Hamilton. Following the United States Declaration of Independence in 1776, the governing doctrines and policies of the States lacked cohesion. "The Federalist", as it was previously known, was constructed by American statesman Alexander Hamilton, and was intended to catalyse the ratification of the United States Constitution. Hamilton recruited fellow statesmen James Madison Jr., and John Jay to write papers for the compendium, and the three are known as some of the Founding Fathers of the United States. Alexander Hamilton (c. 1755-1804) was an American lawyer, journalist and highly influential government official. He also served as a Senior Officer in the Army between 1799-1800 and founded the Federalist Party, the system that governed the nation's finances. His contributions to the Constitution and leadership made a significant and lasting impact on the early development of the nation of the United States.

"In this study the experience in the Netherlands with civic integration policies will be explained in a detailed and systematic way. As it stands, the Netherlands presently has one of the most encompassing and coercive civic integration policies, which is characterised by overseas civic integration testing, a general obligation to pass a civic integration exam for all foreign nationals and the existence of an elaborate sanctioning regime. Our main purpose is to understand the legitimacy of civic integration in this country, particularly through analysing its main implications and effects from a broader perspective. This perspective consists of an historical context, a framework of modern citizenship rights, and a cross border comparison of different national integration concepts. The principal issues to be addressed are the political and social arguments which lay behind the introduction of civic integration policies, and the extent to which these policies fit within academic notions of modern citizenship. In addition, the Dutch model of civic integration will be set against alternative national integration strategies as prevailing in some other immigrant receiving countries, particularly Belgium, Canada and the United States."--Publisher's description.
