World War II was without question the deadliest war in history. Of the estimated 70 million people killed, 50 to 55 million were civilians. The United States managed to stay out of the war that was ravaging the rest of the world until the day when the Empire of Japan bombed Pearl Harbor, "a date which will live in infamy." What prompted the Japanese to wage war with the United States? Was the attack really a surprise or was it a carefully orchestrated event by Washington to anger the American public enough to want to go to war? Did the Japanese government truly believe that they would prevail against the military might of the United States? The losses the Japanese military experienced during the Pacific War were unforeseeable. The suffering endured by the Japanese people was unimaginable. By the end of World War II, Japan had persevered through eight years of war, taking into account the Second Sino-Japanese War which began in 1937. The country lay in ruins and the morale of its people was at an all-time low, but in the land of the rising sun, THE SUN WILL RISE AGAIN! Follow Japan's journey from a nation vanquished to a nation victorious in this book that details the grim realities of war, politics, racism, and blind devotion.

This book seeks to offer an interpretation of how terrorism has become a tool of Muslim radicals and why it is completely at odds with the teaching of Islam. It claims that terrorism has nothing to do with Islam as a religion but the evolution of Muslims, especially in the past one thousand years, has created an environment in which fanaticism, radicalism and violence can flourish. Supported by double standards by Western powers and active backing for corrupt governments and groups, Islamic terrorism came into being. It presents an overview of how Islamic thought in many parts of the Muslim world has become rigid and frozen and grounds for hoping that change in that thought may come, from a perhaps surprising place. It suggests the role that both Muslim and Western societies have played and will continue to play in contributing to reforming Islam. Our purpose is not to provide a thorough proof of our ideas, but to spark discussion and dialogue, both in Muslim and non-Muslim communities (and, ideally, between the two) as to how Islam can regain in world thought and civilization the honored place it had during the Golden Age of Islam.

This book captures some real-life scenarios where people bound by circumstances terminate their journey halfway. Being tired of failures, all their talents and aspirations get buried in the sands of time. Accepting it to be destiny ' s cruel decision, they move from door to door with

a begging bowl, desperately in search of a faint ray of hope: ' Will the fortune ever smile on us? ' Some terrorists and trouble makers train and engage innocent boys in unlawful activities. The high sounding speech of the self-claimed servants of the people, on different occasions like Independence Day, Children ' s Day, Martyrs ' Day, .. end up with some promises and assurances - far from reality. Dada Ji ' s dream to change the lives of people around him and efforts to transform his vision into reality instil self-confidence among many. Rani Maa ' s untiring people-friendly activities and handling critical issues fearlessly further encourage his efforts. In a war between two parties, it is not always the strength that brings victory. Strategy concurs over bravado as Shekhar ' s decisions at crucial points helped him rise through ranks. Providing materialistic help to the needy is an earnest effort or a careless mistake. The focus should be to empower people, not to be needy again. Eliminate crime or criminal, an unconditional surrender of Wing Commander Mahesh narrates a different perspective to this. As Lord Krishna said to Arjuna on the 13th Day of the Mahabharata war, " Thou focus on the fight, leave the results to ' Almighty Me ' ". The book highlights characters keeping up the fight till the end to see through their own Karma ' s fruits.
