There is so much dietary advice out there, much of it conflicting, that it can be difficult for busy parents to make sense of it all. Medical doctor and sports scientist, Professor Tim Noakes, chef and long-distance swimmer, Jonno Proudfoot, and dietitian Bridget Surtees, a specialist in paediatric nutrition, cut through the clamour to provide clear, proven guidelines and simple, delicious recipes to feed your family well, inexpensively and without fuss. Following their phenomenal, record-breaking success with The Real Meal Revolution, the Real Meal team set out to rethink the way we feed our children. The result, Superfood for Superchildren, challenges many ingrained dietary beliefs and advocates a real-food diet for children - from toddlers to teens - that is low in sugar and refined carbohydrates. Their advice is solidly underpinned by a critical, scientific interrogation of the the children's food industry. By combining the latest peer-reviewed scientific evidence with straightforward, mouthwatering recipes, most of them for the whole family, Superfood for Superchildren shows clearly how to provide your children with the best possible nutrition to help them to grow up healthy and happy.

'Scientists labelled fat the enemy . . . they were wrong.' Time magazine We've been told for years that eating fat is bad for us, that it is a primary cause of high blood pressure, heart disease and obesity. The Real Meal Revolution debunks this lie and shows us the way back to restored health through eating what human beings are meant to eat. This book will radically transform your life by showing you clearly, and easily, how to take control of not just your weight, but your overall health, too - through what you eat. And you can eat meat, seafood, eggs, cheese, butter, nuts . . . often the first things to be prohibited or severely restricted on most diets. This is Banting, or Low-Carb, High-Fat (LCHF) eating, for a new generation, solidly underpinned by years of scientific research and by now incontrovertible evidence. This extraordinary book, already a phenomenal bestseller, overturns the conventional dietary wisdom of recent decades that placed carbohydrates at the base of the supposedly healthy-eating pyramid and that has led directly to a worldwide epidemic of obesity and diabetes. Both a startling revelation, and as old as humanity itself, it offers a truly revolutionary approach to healthy eating that explodes the myth, among others, that cholesterol is bad for us. This is emphatically not just another unsustainable, quick-fix diet or a fad waiting to be forgotten, but a long-delayed return to the way human beings are supposed to eat. The Real Meal Revolution is an ebook which maintains the design of the book, and as a result will not display correctly on some basic reading devices.

The concept of clean eating is becoming increasingly popular among adults, however it is children who are the most vulnerable to additives and nasty toxins such as sugar, found in unhealthy, processed, and fast food. Because children are still growing and developing, it's important they consume adequate vitamins and nutrients through their diets. Children are, after all, our future. The concept is simple: using fresh ingredients in their most natural state. We say goodbye to gluten, wheat germ, refined sugar, and genetically modified oils, as these can be addictive, acidic, deplete energy, and can cause sluggishness, mood swings, and hyperactive behaviour in children. Feeding the Future is a glossy lifestyle/cookbook filled with inspiring recipes that all children -- from those aged two to grown-up kidults -- will love. These recipes are clean, nutritious, and delicious, as well as being easy to make. The book is the perfect tool for health-conscious and time-poor parents.

'I am almost two weeks into Restoration and I am feeling great. Went for a blood pressure check and my readings have dropped since I started the program. My GP is thinking that if I keep going the way I am that I will be able to come off the medication really soon which is fantastic.' Maxine, Launceston, Australia 'Halfway through week three of Restoration and weighed myself today!! I dropped 5.6 kgs so far. I can't tell you how elated I am. By this time next week if I stick to the plan and my daily walking target I could be in double digits instead of triple digits, that is such a big deal to me!' Michael Markoulides, United Kingdom 'At the time that I started with the Banting, I weighed 70.3 kg. My goal is to weigh 55 kg. After 13 weeks of strict Banting (and a little cheating) I have lost a total of 11.6 kg. So I am almost there.' Monique Pretorius, Rustenburg, South Africa 'I love this program EVEN MORE! I am not craving and feel full for a long time. I'm in week two [of Restoration] and I have to say Jonno's recipes are fantastic. I'm down four pounds.'
