Participation and Web - eLearning Learning

Curriculum directors reported that Web 2.0 will be used most effectively in social studies, writing, science, and reading at all grade levels. The use of these tools in American classrooms remains the province of individual pioneering classrooms. Web 2.0 is outpacing the capacity of K-12 education to innovate. District administrators, the persons responsible for the decision-making on Web 2.0 in schools, are more passive than active users in the Web 2.0 space.

What Are Some Disadvantages of Web 2.0? - Education Summer ...
Web 2.0 applications support the principles of good teaching and learning--active participation and collaboration. To meet the learning needs of students today, educators, including school librarians, must embrace these tools in a way that supports interactive, inquiry based, technology-rich learning. School librarians can be key players in helping establish this type of learning and teaching environment by making use of the resources available.
